

NEW FOR 2019

Delta Packing Offering Grapes In The LODI RULES Program!

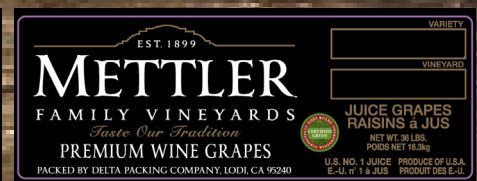

What is LODI RULES?

Lodi Rules has become the preeminent standard for sustainability certification programs through rigorous, science based, voluntary, third-party accredited and audited processes. Ensuring wine makers that any and all chemicals used on our grapes are safe and under U.S. tolerances through MRL testing.

“Sustainability is the foundation of everything we do at Delta Packing. Now, along with already offering all of our grapes being certified with Primus/GFSI, Global GAP vineyards, Environmental Monitoring Program (EMP), and our warehouse HACAAP, being able to offer our customers grapes that are sustainably farmed in the LODI RULES program, ensures we are offering only the best grapes from California.”

- Berton Costamagna

Be sure to ask for these labels and with the LODI RULES stamp:
